

AG BLEND

All natural liming source. Plant based micro-nutrients. Recycled Soil Amendment.

GSC Ag Blend is a 100% Georgia made soil amendment made from locally source layer hen litter, organic compost, and wood ash. GSC Ag Blend is an all-purpose amendment that will provide nutrients, add organic material, and will raise pH of acidic soils. An additional boost will include calcium and other micro-nutrients.

GSC Ag Blend can be used in many applications, including home gardens, plant beds, pastures and hay fields.

GENERAL USES:
